File 29-2-6

Chalk River Laboratory

Chalk River, Ont.

September 30, 1946.

MEMORANDUM TO: W.B. Lewis *W.B.*  
FROM: N. Millor

Polymer Received from the French Government.

The above material is now stored in Building 102 in drum No. T7, gross weight, 402.0 lbs, tare weight 105.5, net weight 296.5, and it is estimated to be of 99.5 mol.% purity with respect to deuterium. An accurate isotopic analysis is being made at the moment.

cc. Mr. Watson  
Dr. Cook
